

WestRock TruServ® Pressed Tray

Trays that can take the heat. Not to mention the freeze.

From freezer to oven without missing a beat. That's the advantage you can expect from WestRock TruServ® Pressed Tray paperboard. It's the ideal solution for frozen trayed meals as well as deli trays, grocery store or convenience store fresh meals, bakery applications and more. SBS-based, this resilient paperboard maintains compliance with strict global food safety standards. It offers a smooth surface that's highly printable so you can create customisable, thermoformed trays.

Region

EMEA (Europe, the Middle East and Africa)

Packaging uses

Pressed Food Trays
Pressed Foodservice Trays

Product Classification

Polymer-Coated
Solid Bleached Sulphate
SBS Paperboard
Uncoated Paperboard

What You Can Expect from Us

- Thermal Stability** Extruded with a barrier polymer (available clear) that is engineered to perform from -40°F (-40°C) to 428°F (220°C).
- Moisture Resistance** Withstands the demands of frozen food environments. You can expect it to maintain integrity throughout the cyclical conditions of the cold chain.
- Product Uniformity** A smooth surface provides outstanding ink holdout and best-in-class print consistency. Polymer coat-weight uniformity offers improved efficiencies and maximum forming and filling throughput.
- Heat Sealability** Outstanding heat-sealing performance across a range of technologies, including hot air, platen and microwave. This means you can expect improved efficiency and ultimate flexibility.

Additional Product Information

- Chain of Custody** 100% PEFC Certified BMT-PEFC-0332
- Food Contact** Meets multiple national requirements for food contact packaging, e.g., US, Canada, Germany and the EU. Contact your sales representative for information on specific markets and end uses. ISEGA Certificate available. Kosher documentation available.
- Quality** Produced at an ISO 9001 certified facility.
- Environmental and Safety** Notices under US California Proposition 65 and the EU REACH regulation are not required. Elemental chlorine free (ECF) bleached fibre. Meets heavy metal limits of the US Model Toxics in Packaging rules and Article 11 of EU Directive 94/62/EC.

Grade Availability (EMEA) & Typical Properties

TruServ® Pressed Tray

Grade Availability				Units	Method	
Nominal Basis Weight	300	330	375	gsm	T-410	
Caliper (pts)	0.0165	0.0180	0.0200	inches	T-411	
Thickness	419	457	508	microns	T-411	
Moisture	9.0	9.5	10.0	percent	T-412	
GE Brightness	84	84	84	percent	T-452	
Stiffness						
Taber 15°	MD	16.2	21.3	26.5	mNm	T-489
	CD	7.5	9.8	13.8	mNm	T-489

Values are for basestock only; for nominal basis weight including polymer, add 40 gsm.
